Dear Patient,

Due to the overwhelming request of our patients, I have decided to implement a wellness program. Our goal is to provide you with the resources you need to make informed decisions about your health. The wellness program will include but not be limited to free patient education through our nutritional website, weight management classes, free optimum health seminars, and free consultations with our wellness coach. The nutraMetrix website is a nutritional website that is available only to licensed health professionals and their patients. Please feel free to ask my staff how you can get your free nutritional analysis.

As a part of my treatment program and commitment to your optimum health I may recommend one or more nutritional supplements for you. Recommendations for supplementation will be made if I believe that you will benefit from them. I want you to know that because of my belief in the integrity and effectiveness of these supplements, I have chosen to be a distributor of these products and in that role I may receive commissions should you choose to purchase them from our office. Please ask to speak to me if you have any concerns about my recommendation in light of this information .

Sincerely,

Ted French, D.D.S
